

TECHNICAL DATA SHEET

DIESEL DEEP CLEAN™ PARTICULATE FILTER CLEANER & POWER BOOSTER

PRODUCT # 10872

TEST

ASTM

TYPICAL

API Gravity	D-1298	28.4
Specific Gravity @ 60°F	D-1298	0.885
Density @ 60°F LBS/US Gal	D-1298	7.37
Viscosity @ 100°C, cSt	D-445	5.8
Flash Point, PMCC °F	D-93	155
Color		Light Yellow

Lucas Diesel Deep Clean™ is new technology designed to reduce particulate matter in diesel particulate filters (DPF), which helps extend the life of the equipment. Particulate matter is a major contributor to the degradation of DPF systems. Our product cleans fuel injectors, restores power loss and improves acceleration. It restores engine performance and improves fuel economy and reduces NOx emissions.

One 16 ounce (473 mL) bottle treats up to 30 gallons (113.5 L) of diesel fuel. Our product is designed for use in automotive and heavy duty diesel engines. It brings sluggish engines back to life. Our product can be used at every oil change or at every fill-up.
