Lucas Oil Synthetic SAE 15W-40 CK-4 Motor Oil is a premium Heavy-Duty Motor formulated with state-of-the-art additive chemistry and synthetic base oils to deliver maximum performance for modern diesel engines. The exceptional oxidation resistance formulated into this product gives maximum oil drain potential while protecting engines against unplanned down time. **Lucas Oil Synthetic SAE 15W-40 CK-4 Motor Oil** is fully backward compatible with the previous API standards CJ-4 and CI-4 Plus but is specially formulated for modern engines using Ultra-Low Sulfur Diesel Fuel and engines equipped with emissions after-treatment systems. **Lucas Synthetic SAE 15W-40 CK-4** provides excellent soot control and TBN retention as well as improved shear stability. This traditional heavy-duty diesel engine oil also meets or exceeds the requirements of light duty specifications such as API SN and is especially well suited for higher mileage engines or for mixed fleets where older and newer vehicles can all use the same motor oil.
