

LUCAS OIL PRODUCTS, INC. PRODUCT DATA SHEET

SLICK MIST® INTERIOR DETAILER

Lucas Oil Slick Mist® Interior Detailer is a unique, water-based formula developed for quickly detailing your entire vehicle interior. Lucas Oil Slick Mist® Interior Detailer is used by professional detailers and racing professionals to keep all vehicles show-read, whether on the road or at the track.

Lucas Oil Slick Mist® Interior Detailer removes dust, dirt, oils, and other surface soils, and does not leave any oily residue. It is safe for use on most vehicle surfaces including plastic, vinyl, leather, rubber, metal, chrome, and aluminum surfaces. It cleans and protects side door panels, dashboards, consoles, leather seats, and interior trim. Our long lasting and UV resistant formulation revitalizes your interior, making any surface shine like new, no matter the age.

For best results, shake bottle well prior to use. Spray generously on interior surfaces, let sit and then wipe away with a soft terry cloth towel, chamois, microfiber towel or sponge applicator. Lucas Oil recommends overspray onto carpet or fabric surfaces be avoided. Clean up spills quickly to avoid possible staining.

ATTENTION: Do not use any Slick Mist® products on floors, vehicle controls (pedals, grips, steering wheels), motorcycle seats or tires, bicycles seats or tires, brake drums and any other surfaces where slipperiness may be hazardous.

PART NUMBER AND SIZE:

20514 – 710 mL (Case of 6)
20558 - Slick Mist Car Care Kit

FEATURES AND BENEFITS:
